500,000 PEOPLE

Throughout the United States & Canadas,

HAVE USED

DR. J. MILLER'S

SOOTHING & HEALING

BALSAM,

And cheerfully recommend it to the public as being the BEST FAMILY MEDICINE in the world for all internal and external complaints for which it is recommended. It is fast gaining popular favor, and has already reached extensive sales. All we ask, in order to convince the most skeptical of the powerful efficacy of THIS GREAT REMEDY, is the trial of one bottle, costing only 50 cents, and you will never be without it or hesitate to recommend it to your friends. Sold by druggists everywhere. Every bottle used according to directions is warranted to cure, or money refunded.

The proprietors CHALLENGE THE WORLD to produce its superior as a remedy. Testimonials received daily in reference to the astonishing cures it has performed. It is used and recommended by prominent physicians throughout the country.

It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the side, back or shoulders, Piles, Corns, Chilblains, Chapped Hands, stiff Neck, Ague in the face or breast, Ear Ache, Deafness, Loss of Motion of Limbs, Poisoning, Erysipelas, Inflamation of the Eyes, Inflamed Irritation of the Skin. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season, it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflamation of the Bowels, Dysentery, Kidney Complaints and Cholera Morbus.

THE "BALSAM" has also given great relief in many cases of Diphtheria.

No person need fear to use this medicine, as it is purely vegetable in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

NEW ADVERTISEMENTS.

THE METHODIST, of New York, has all ways been edited with marked ability by Rev. Dr. CROOKS. Its publishers have just added to its editorial corps, Rev. ABEL STEVENS, an equally experienced journalist, and author of the best History of Methodism extant. They have also engaged contributions and sermons from the Rev. T. DE WITT TALMAGE whose success and popularity as a preacher, writer and lecturer, are almost unexampled, and whose free Tabernacle in Brooklyn, with its congregation of over 3,000 people, is one of the marvels of the age. Rev. HENRY WARD BEECHER has a Lecture Room Talk every week.

THE METHODIST abounds in good things, is never dull or dry, has stories for children, hints for farmers, and something for everybody. Mrs. Whilig's great serial story is almost ready. They offer for the price of one year's subscription ($3.00) to send THE METHODIST from now until July 1st, 1872. Specimen copies free. 114 Nassau Street, New York.

TARRANT'S SELTZER APERIENT.

OF A FAR HIGHER CLASS

than any other proprietory medicine of the day stands

TARRANT'S EFFERVESCENT SELTZER APERIENT,

And for this reason: It is an exact counterpart of one of the most valuable natural medicines in the world. We refer to the great Seltzer Spring of Germany, to which thousands of the dyspeptic, the bilious, the rheumatic, and the victims of venal diseases resort annually, and return to their homes, convalescent or cured. The Aperient is one of the first and by far the most successful of all the efforts made to reproduce, in a portable form, the popular mineral waters of Europe. See that you purchase only the genuine article.

SOLD BY ALL DRUGGISTS.

BISHOP SOULE'S LINIMENT,

Invented by the late Bishop Soule, is creating a revolution in the cure of SCIATICA, RHEUMATISM, NEURALGIA, KIDNEY and SPINAL COMPLAINTS, SORE THROAT, SPRAINS, &c. The cures effected by it are almost beyond belief. Try it, use nothing else, and you will be cured. It is the only sure cure for that dreadful disease, Sciatica.

For sale by Druggists, price $1.00 per bottle.

World's Fairs.

Twenty years ago Monday, the first International Exhibition was held in London. It was justly regarded as a great event—as taking a guage of the mechanical and industrial position of the whole world. That it produced good effects cannot be denied, and the result was that many improvements in manufactures followed through the interchange of ideas. The exhibition ten years subsequently was even a greater success, for it was on a larger and more matured scale. But whether the exhibition which opened Monday is equal to the last we have some reason for doubting. We fear France is not represented, in consequence of her deplorable state, and on the last occasion it was the French Court in the great fair that was the principal attraction, for it eclipsed all the others. The absence of this alone would be a great drawback. Indeed we have reasons for doubting whether the Exposition is of that universal and cosmopolitan character which distinguished the previous ones. If this be so, it is no doubt owing to the other expositions and exhibitions which have been given in other places. The one in Paris a few years since could hardly be equaled. In short, it is not improbable that the British metropolis has lost something of its pre-eminence on the subject of exhibitions, expositions and world's fairs. Certainly the orient has not been looked forward to with that interest by the world at large that the previous ones were, and in this country it has not attracted much attention.

Farm, Garden and Household.

LETTUCE,

sown in hot beds, may be transplanted to the open ground; sow seeds in warm dry soil.

CRESS

must be sown for a success, in drills ten inches apart, and at intervals of a week or ten days.

CABBAGES.

Set out plants from cold frame as soon as the ground is dry. Sow seeds in open ground, and as soon as an inch or two high, sprinkle with ashes to keep off the cabbage flea.

ONIONS,

in order to succeed well, need to be sown as early as the ground can be worked. Sow in the fine rich soil, in drills a foot apart. Put out potato and top onions in rows fifteen inches apart, and the bulbs four inches apart in the rows

HORSE RADISH.

The earlier this is planted, the better growth will it make. Set out the small roots, which have been preserved during the winter, in sand. This crop needs a large application of manure to secure the best results. The roots should be about two inches long and set out in rows from eighteen inches to two feet apart.

LAND

intended for roots should be plowed and harrowed, cultivated, rolled, and plowed again, and worked until it is as mellow as a garden. Parsnips should be sown as soon as the land is in good order, and carrots a week or two later. Mangles and other beets need not be sown until May, and rutabagas two or three weeks later. Make the land rich with well rotted manure, and guano of superphosphate.

WARFIELD'S

Cold Water Soap

What the People Say of it:

The Workingman (a neat Monthly published in Philadelphia, 503 Chestnut street, and "devoted to the best interests of all who labor with hands or brain") has a column in its November issue headed, INTERESTING TO EVERY HOUSEKEEPER, in which it says: "Any woman can try this soap for herself, in her own room. The result will be so like magic that she will be in surprise and delight."

"We have seen a lady take a badly-soiled tidy or antimacassar, put it in suds made in her room with this Cold-Water Soap, and in five minutes cleans it as white as a card. We have seen her take hair-ribbons, cashmere, collars, fine worsted work, cambric handkerchiefs, silk and cotton gloves, etc., etc., and wash them in three or four minutes as clean as when they were new.

"For poor women who have their own washing and housework to do, this Cold-Water Soap will prove the kindest of friends."

The Providence *General Advertiser* (Oct. 29) says of it: "Should a convention of ladies be held to discuss the merits of the great variety of soaps now before the public, we believe it would be the unanimous voice of the body that 'Warfield's Cold-water Self-washing Soap' is entitled to rank A No. 1."

A lady in Providence, writing to Mrs. B. F. Barrett of Philadelphia, after using it three months, says: "This Cold-Water Soap is really one of the greatest inventions of the age. A lady in this city washed a silk Roman scarf with it without injuring the fabric at all; and it brightened the colors. Thousands of testimonials similar to the foregoing might be obtained, but nothing will be half so convincing as *trying the Soap yourself.*

NEWPORT DAILY NEWS.

THURSDAY, May 4, 1871.

Dead Lock.

The Pensylvania legislature is in need of another Winans to unclog the wheels of legislation, and facilitate matters so that those valiant law makers may finish their work and go home. Something must be done. Money must be circulated more freely than it has yet been or the traitor will not be found. For weeks now all business has been at a stand still. Each house being determined to do what it knows the other will not sanction. In the Senate the democrats have one majority, while the House is ten republican, consequently the friends of Tweed, Sweeny &Co., at Harrisburg have harder work to perform, and need a longer purse with which to effect their ends, than did the Tammany democracy at Albany. Which party will win it is difficult to say. Meanwhile they have concluded to agree upon one point, the voting themselves seven dollars per day for the session, and upon others they are content to await the issue. The honest taxpayers of the state, however, prefer that they should look upon the situation a little less dally. They prefer that they should either do something or nothing, and that quickly, so that their departure from the capital may be hastened and the State left in peace.

The Situation.

Late advices from the scene of war bring news of great significance. It is now asserted that the German lords are determined to enter France after a limited time, to put down the insurgents and to collect their indemnity. That Bismark expects to be compelled to take this instalment by force, there can be but little doubt; hence he is ready at any time to send his army to Paris and again take the nation under his control. At Brussels there is yet some doubt as to how this promised payment is to be be obtained.

The German Envoys insist upon quarterly cash payments of the one thousand millions of dollars due by France, extending over a period of about three years. The French Envoys propose to give one-fifth in cash, and the remainder in national promises to pay. The Germans are disposed to fall back upon the territorial guarantee still held by their armies, and for years to come we may possibly see German Prefects raising, for the benefit of their Government, the revenues of large sections of France. Some deeper degradation may await the unhappy country which, a year ago, was the most confident in its own powers of any in Europe, but it is difficult to imagine what it can be.

Lawlessness of Street Car Conductors.

The murder of Mr. Putnam has called up many accounts of outrages committed upon passengers in that den of evil, known as New York city. Among others, Mr. E. L. Godkin, of the *Nation*, relates an outrage that was committed upon him two years ago upon the Broadway railroad. He got upon the platform of a crowded car one rainy night, and several times stepped off to allow ladies to pass out. Upon every occasion the conductor started up without giving him time to step back, and he had to run in the mud several yards to catch the car. At last he remonstrated with the conductor, who finally seized Mr. Godkin violently and pushed him from the platform. Mr. Godkin tried in vain to get satisfaction from the company. He has now sued them for damages, and the case will be tried next month.

Political.

General Sherman is reported to have said, in his recent speech in New Orleans, in reference to San Domingo: "We have territory enough—more than we can have use for. We can hire a coaling station in the West Indies for $3000 a year, and we had better do that."

The President says that he shall at once have the provisions of the Ku-Klux bill, recently enacted, carefully examined and explained to him by the Attorney General, and shall lose no time in exercising the power which it gives him to put down malignant disloyalty.

Political affairs in New Hampshire and Connecticut are somewhat mixed, and it needs a prophetic mind to define for them the direction which matter may take, and show the result of the contest. The Connecticut legislature met yesterday, and the anxious candidates will soon know who is to sit in the chair of State the coming year. In N. Hampshire they must wait till the first Wednesday in June before their troubles can be ended.

A Few of Our Wealthy Men.

Though the Revenue Department has forbidden its officers to publish the income tax returns, as was formerly the custom, we have contrived to ascertain the amounts returned for 1870 by many of the wealthiest men in N. York. A. T. Stewart still heads the list, his income being over a million and a half; there are two others in the same (Fifth avenue) district over three hundred thousand, namely, E. S. Higgins, $375,000, and B. G. Arnold, ($340,000). Then come eleven men whose incomes less than three hundred thousand but over two hundred thousand; Moses Taylor, P. Goelet, James G. Bennett, of the *Herald* ($261,000), A. R. Eno, G. Bliss, L. P. Morton, Rufus Hatch, A. Stewart, G. Kemp, H. Bonner, of the *Ledger* ($[illegible]), and H. Fisk (of Fisk & Hatch). A. S. Hatch heads the list of twenty-six men whose incomes are between one and two hundred thousand dollars; Henry Clews, Paran Stevens, John J. Cisco, Peter Cooper ($105,000) and L. D[illegible] in this list. As a general thing, these incomes are far below those of the same men for the year immediately preceding 1870.—*N. Y. Paper.*

Sore necks on working oxen occur when worked in wet weather, or with bad yokes. The remedy is, good yokes; the application of grease; or a decoction of white or yellow oak bark applied to the affected parts. Or, a better preventive is a canvass or leather cap to protect the neck entirely from the storm.

For stings of bees, hornets, &c, apply warm vinegar and salt, rubbing the parts thoroughly.

It was at the dinner of an Irish association that the following toast was given: 'Here's to the president of the society—Patrick O'Rafferty; an' may he live to eat the chicken that scratches over his grave.'

President Grant has subscribed $100, and August Belmont $500, to the fund for rebuilding Phillip's academy at Exeter, N. H.

Mr. T. Buchanan Read, the poet artist, intends to leave Rome in June, to return to America, but only for a short visit, as he has made arrangements to be in Italy in the autumn.

The Princess Marie, daughter of Prince Frederick Charles of Prussia, is affianced to the Crown Prince of Wurtemberg. King Ludwig of Bavaria recently applied for her hand, but he was informed of the above fact and withdrew from the matrimonial lists.

Numerous Senators and Representatives are purchasing or leasing houses in Washington. Senator Frelinghuysen has bought the old Albert mansion for $30,000. Senator West is building a residence on Sixteenth street, at a cost of about $20,000, and Senator Fenton has leased a house on Lafayette square. Judge Strong has bought a house on H street, for $35,000, and ex Governor McCormick has purchased a house on Fourteenth street. Senator Edmunds has just completed a fine residence, and his colleague, Senator Morrill, is building a house. Public life seems to pay pretty well.

The Washington correspondent of the Philadelphia *Press* says it appears that the Spanish government is very desirous of disposing of Cuba to the United States. Her main object appears to be to get as large a sum as possible. Her first proposition to our Minister, General Sickles, was two hundred millions. The sum was then reduced fifty millions, and finally to one hundred millions. Some time ago, Mr. Fish informed our Minister that the government could not at present entertain any proposition looking to the acquisition of that island.

Although the British government is sustained by a direct vote of the commons, in its proposed measure to increase the tax on incomes, the opposition to it is very earnest and decided. Under the lead of Disraeli the opposition members attack relentlessly the administration of Gladstone and especially the management of Lowe, the chancellor of the exchequer. It is likely that the terms of the budget will be materially modified before a decisive vote is reached. The opposition appears to be strongly supported by the people in all parts of the country.

About Home.

Mr. Geo. H. Copeland, formerly of the United States hotel in this city, will take charge of the Continental at Narragansett Pier the present season.

Three new cases of cattle disease have appeared in Woonsocket. In four other localities in the state the disease has been discovered, all of which can be traced directly to the West Albany cattle yards.

Persons having the western fever can now go to Chicago and return for $26,00 Cheap enough.

The Home *Journal* reports Mr. & Mrs. Graves, and Mr. & Mrs. Robert Thorn as having left New York for their Newport cottages.

Mr. A. S. Hatch has sold his fine yacht, the *Calypso*, and is having a new one built to take its place. It is said by those who know that it will be one of the fastest and best of the squadron.

Dr. Andrew Mackie, a graduate of Brown University recently died in New Bedford.

The Fair at the Academy of Music is postponed until to-morrow, on account of the weather.

Revenue Seizure.—The revenue steamer *Moccasin* visited the schooner Etta, from the West Indies to Boston, which put in here this morning, and made a seizure of over 3000 cigars. Persons who desire to evade the revenue laws, at the expense of the government, make a mistake when they come to Newport.

For Providence.—The Spring arrangement of the American Steamboat Company will commence next Monday, the steamers *Bay Queen* and *Whatcheer* going upon the route. The latter will leave Providence at 10 a. m., and Newport at 4 p. m. The *Bay Queen* leaves Newport at 8 a. m., and Providence at 5 p. m.

Public Schools.—Yesterday at 2 p. m., a goodly number of parents and friends gathered at the primary schools on Farewell and Cranston streets, to witness the exhibition of the work done by their little ones. The teachers Mrs. E. R. Sterne and Miss Maria Kavanaugh had evidently exerted themselves that they might have a good exhibition, and they were eminently successful, for the exercises passed off to the entire satisfaction of all present.

Personal.—We are pleased to see Henry Bedlow Esq. in town again, after his sojourn in Europe. We understand that he has come home at this time for the purpose of making extensive improvements at his villa on Malbone Avenue. In other years this was the finest country seat in America, and it is far in advance of most of its competitors even in this day of progress. Numerous changes are also to be made in the vicinity, as new streets are to be made so as to bring this beautiful section of the town into market. We trust the enterprise will prove a success.

Election of Officers:—At a regular meeting of the Sons of Joshua No 5. of the American Protestant association held at Harmony Hall yesterday, the following officers were installed by D. D. G. Masters John Holladay and James Wilson:

W. M.—John Gash.
W. C. M.—Thomas Blaunt.
R. S.—James Hilton.
F. S.—John I. Brett.
A. S.—Richard Graham.
Tress.—George Hamilton.
Chaplain.—John F. Flynn.
C.—William Gill.
A. C.—John Johnston.
I. F.—Samuel Right.
O. T.—Wm Brown.

New Bedford.

The *Mercury* chronicles the death, Tuesday, of Dr. Andrew Mackie, an old physician and respected citizen, aged 77 years.

New Bedford settled the beer question for another year, by a vote of 607 yeas; 840 nays.

Miss Grace W. Clark, daughter of the late Harrison Clark, of New Bedford, was committed to the Taunton Insane Asylum, Tuesday.

Loss of Life in war.

The fearful losses of human life, incurred on both sides, in the conflict which has just been concluded in Europe calls to reflection the number of men who have been sacrificed to the demon of destruction in the wars which have been waged from 1815 to 1864. In these wars 2,762,000 have fallen; of whom 2,148,000 were Europeans, and 614,000 from other parts of the globe; which gives an average of 43 800 per annum. These figures do not include those who have died from disease during the different campaigns. The Crimean war cost 508,600 men, thus divided: Russians, 256 000; Turks, 93,000; French, 107,000; English, 45,000; and Italians, 5 650. In the Caucasus, between 1829 and 1830,330,000 men lost their lives. The Indian revolt reckons its 196,000 lives. The Russo-Turkish war, from 1820 to 1829, 103,000. The Polish insurrection in 1841, 190,000 men. The French campaigns in Africa, 140,000. The Hungarian insurrection 142,000. The Italian war, 129,870; of whom 93,974 died in the field or from their wounds, and 33,000 from various diseases. The Total number of lives lost in Europe, during the wars from 1792 to 1815, amounted to 5,630,000; which gives, for the twenty three years, an average of 240,431 deaths per year. Our own recent struggle has left equally appalling results. From the last census of New York we get a slight idea of what the whole Union—North and South—must have lost in men. In 1860 the population of New York was 3,880,727; in 1865 it was 3,831,777. This great and prosperous State had lost during the war 48,950.

The Biggest Farmer Yet.

The Denver *Tribune* gives the following:—

Alexander, the Illinois farmer and stock-grower, whose landed possessions are reported to cover an entire county, enjoys a distinction as broad as the nation. Perhaps somewhere in some vast wilderness we could locate a man with less distinction but more possessions than the Sucker State millionaire. Now, to illustrate our idea; there is Richard King, who frequently rusticates in Denver, owner and occupant of Santa Katrutis Ranch, in northern Texas. The ranch or plantation consists of nineteen leagues of land, each league embracing 4,423 acres; on this plantation there are sixty-five thousand head of cattle; one-fourth of this number are beeves, one fourth cows; the other half comprises one and two year olds. Mr. King owns one thousand saddle horses; employs between three and four hundred herdsmen; he also owns seven thousand brood mares, and as many thousand sheep. He brands twelve thousand calves annually. He keeps between eight hundred and a thousand bulls, or gentlemen bovines. It may be stated, in this connection, that upwards of six millions of beef cattle are driven from Texas yearly.

Dispatches.

Greenburgh, N.Y. had an election riot yesterday. Both ballot boxes and heads were smashed.

Carl Schurz was received with great honors at St. Louis, without respect of party.

Rev. Mr. Cheney, the Chicago divine, is again before the courts of the Episcopal church.

Foster, the murderer of Mr. Putnam, will be tried before Judge Cardoza on Monday next.

Dr. Livingston has been heard from. He is not only alive but well.

There was a great fire in Brooklyn, last night which destroyed a hat factory at a loss of half a million dollars. More than five hundred men are thrown out of employment.

A woolen mill in Hartford was burned, making a loss of $75,000. Insured for $55,000.

A Burglar's Kit.

The Philadelphia police recently captured a set of burglar's tools, of which the following is the catalogue: "A heavy wrought iron brace, to be used in drilling into a safe door; a jointed crow, arranged in sections for convenience; a great variety of steel pointed and curiously shaped jimmies, to be screwed on the bar; dozens of fine pointed wedges, to be used in forcing apart joints; woolen caps, shaped like ancient helmets, covering the entire face except the eyes; white bags, to be drawn over the heads of subdued watchmen; a large guttapercha syringe, to inject powder into a lock; a canister of powder, lot of cartridges, and a coil of fuse; a bundle of bits, drills, files, and scraps of iron; an alarm bell, to be operated by an accomplice outside the bank; strips of rubber, bundles of hemp, and packages of paper, to deaden the sound of blows; a coil of rope, rubber bag, (a mystery to the detectives,) a curiously shaped tube of horn, (also a mystery to the detectives;) three large pieces of tough wood, for supports in drilling into the safe. The above mentioned articles, save the musket, larger jimmies, and wood, were carried in large and genteel looking valises."

How I Plant Corn.

As early in May as the ground becomes dry and warm, turn over the sward, which is usually an old pasture, in which the better grasses have run out, running the plough about seven inches in depth and lopping the furrows, so that the inverted sod may be more influenced by the sun and rain. A Share's harrow is put on, following the course of furrows, after which it may be cross harrowed with a fine toothed implement, without fear of tearing up the sod. The field is then marked both ways, with wooden teeth placed at proper distances in a scantling, so that the mark may be plainly seen. When ready for planting (which I defer until the ground becomes warm), I have provided as many barrels of double refined poudrette as I have acres of ground, and drop a small handful where I want each hill. The corn is dropped immediately in contact with the poudrette, and covered to a proper depth, from one to one and a half inches. When the corn comes up, instead of retaining its spiral form, when not more than an inch high, its leaves spread out and assume a dark green color and grow right along, and, with proper cultivation for the rest of the season, it is ready to put in shock in August. My notion is, that corn requires something to give it a vigorous start. After its leaves attain considerable size, and the roots begin to reach the turf below it, then it has means at its command to mature a fair crop. Getting the right kind of start is the main thing to insure a good crop of corn. [C. E. Sowle, in Country Gentleman.

Asparagus Beds.

Hitherto our family gardens have allowed but small space to the asparagus bed. The plants have usually been put out in rows two feet apart, one foot in the row, and the beds have been limited to about 6 4-10 feet. The new variety (Conover's Colossal) has with its introduction also brought a new system of culture—wide planting. The originator now puts his plants four and one half by four feet, and grows entirely in hills. By this method larger shoots are obtained, and more shoots from every hill; so that in the end, the culture is much easier; the produce is fully as ample, but being of larger size, the profits are far greater. The roots of the Colossal will grow in one season from seed, to the length of two and a half or three feet. If we were to plant them two feet apart or even three, would they not overlap each other, and in time, as they enlarge, year after year, would not the ground become one entire network of roots, sucking and robbing one another as much as possible? But if the plants are put at right distances apart—say four feet—each plant forms a hill by itself; controlling exclusively the nutrition immediately around, and hence we have a greater success and far more permanent plantations of this delicious vegetable.

The Sultan's Gift.

The famous Turkey carpet, sent by the Sultan to the President for the East room of the White House, is thus described by the Washington correspondent of the New York *Herald*:

When the carpet was unrolled, instead of a a beautiful design, as was expected, a yellow, red and white striped carpet, with vine work, not unlike the crude design discovered on ancient Egyptian ware, or, perhaps more correctly speaking, the fantastic drawings of ambitious urchins, was found to relieve the monotonous tapestry fabricated by one Haeji Hadi Effendi Elvadji Zade, of Constantinople. The carpet is badly sewed together, matched in a dozen places, and when stretched and nailed down will present to the eye innumerable surpentine lines, utterly disfiguring the hitherto agreeable appearance of the apartment. The colors are too heavy and the design altogether too common for the adornment of the principal parlor of the Executive Mansion; but as it cost the Government nothing, and as it would be disrespectful to our friends in the neighborhood of the Golden Horn not to accept it, the Sultan's present will doubtless continue to disfigure the Executive Mansion. If it serves no better purpose it will at least serve to show how much the people of Turkey need the artistic taste of American artisans in working up their expensive material.

Dr Sage's Catarrh Remedy is no Patent Medicine humbug gotten up to dupe the ignorant and credulous, nor is it represented as being "composed of rare and precious substances, brought from the four corners of the earth, carried seven times across the Great Desert of Saharah on the backs of fourteen camels, and brought across the Atlantic Ocean on two ships." It is a simple, mild, soothing, pleasant Remedy, a perfect specific for Chronic Nasal Catarrh, "Cold in the head," and kindred diseases. The proprietor, R. V. Pierce, M. D., of Buffalo, N. Y., offers a reward of $500 for a case of Catarrh he cannot cure. For sale by most druggists everywhere. Sent by mail, post-paid, for sixty cents. Address the sole proprietor as above.

The Eastern Railroad Company have hung the sash in four new passenger cars, now in daily use on that road, with *Glass Window Pulleys*, and their Master Car Builder says of them "I consider the *Glass Pulley* with weights, *all that could be desired* as a window fixture for railway cars."

Anecdote of Webster.

Those who remember Daniel Webster, and have seen him in one of his thoughtful moods, cannot have forgotten how utterly he could withdraw himself from the influence of all outward things when deeply meditating upon a subject that interested him. The last time I saw him alive was at Conway, N. H., while he was Secretary of State, under Fillmore's administration; I watched him for a full half hour as he paced up and down the broad hall of the Conway House, his hands clasped beneath the skirts of the inevitable blue coat; his head bowed; and the slow cadence of his varying never a particle. People came and went; people stopped and stared; and he saw them not. His private secretary stood close at hand, and ever and anon, in passing the Great Expounder muttered something which the attendant noted upon paper. I afterward learned that during that half hour of seeming oblivviousness were cogitated the chief points of that famous letter to the Austrian ambassador which solved and dissipated the Hungarian complications. It was while speaking of this power of Webster's of withdrawing himself 'within himself,' that a friend related to me, the following:

Just before Lafayette's last visit to America, Webster was one of a fishing party in Massachusetts Bay. He had been selected to deliver the welcoming speech to the great Frenchman on his approaching visit, and during his piscatory occupation he seemed very abstracted. A gentleman who was fishing next to him addressed him several times without receiving so much as a nod in answer. By and by Webster began pulling in his line, hand over hand, with an effort which plainly signified that a large fish had been hooked; but upon his face there was not a single gleam of that eager joy that usually accompanies such an event. At length the fish was seen approaching the surface, gleaming through the green water like burnished silver; still Webster's face gave not a sign of pride or gratification; but just as the fish broke water he burst out, in tones of solemn rapture,—

"Venerable man! Sage, Patriot, and Soldier! Representative of two hemispheres! Welcome to our shores once more!"

And down dropped a monster cod upon the deck. S. C., JR.

Quit Drugging.

This is now admitted by the medical profession as a fundamental principle of healing science. It is wisely provided by the human economy that whenever anything is wrong in the physical system the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skilful compounders of Hostetter's Stomach Bitters, which operates to give fresh vitality to all the organs of the body. The effect of this medicine upon the stomach, the liver and the kidneys, is prompt and decisive. The patient, who is wise enough to quit drugging and try the Bitters, soon feels as if he had taken a new lease of life, and as he continues the use of the article, he is overjoyed to find the streams of health coursing through his frame. It is prepared with great care, and its component parts are entirely vegetable. It is free from the objections so often urged against preparations of the kind. As a medicinal agent it has no equal, while its pleasing flavor and healthful effects have made it a general favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing and efficient. All who have used Hostetter's Stomach Bitters attest its virtues and commend it.

Even those who are in the enjoyment of perfect health frequently have need to have recourse to tonics as preventives of disease. We are never too well armed against the assaults of "the ills that flesh is heir to." In health or sickness this tonic cannot be taken regularly without giving vitality and elasticity to the system.

Thompson's Pomade Optime, as a dressing for the Hair is all that is required; purely vegetable and highly perfumed, it softens, improves and beautifies the Hair, strengthens the roots, and gives it a rich, glossy appearance. For sale by all druggists. Price 35 and 75 cents, per bottle.

Chinese Tooth Ache Drops, put up by F. C. Wells & Co. This article has been used for many ages by the Chinese as an infallible and almost instantaneous cure for this most painful affliction.—For sale by all druggists. Price 25 cts. per bottle.

Burnett's Balsamic Mixture of Cubebs and Copaiba.—This favorite, well-known and reliable remedy for the speedy cure of "*the complaint*," is for sale by all druggists. Price $1 per bottle.

Sherman's Cough and Worm Lozenges, Sherman's Poor Man's Plasters and Orris Tooth Paste are still to be obtained from any druggist, prepared from the original receipts, and sold at the old prices. may3-n&j

Kingston, R. I., Oct. 14, 1870.
WM. K. REYNOLDS, Esq.—Dear Sir:—This is to certify that Barnum's Lotion has been used in my family for about two years, and upon every member of it in some way or other, either internal or external, and in every instance they have received a benefit, if not a cure. I will further say, it is the best Liniment I ever tried, and I think I have had no little experience, after having and suffering more or less from Rheumatism for the last fifteen years.—This Liniment is full up to its recommendation, as far as I have used it. I buy it by the dozen bottles, for family use, and do not wish to be without the Lotion in my family, if I can get it.
E. S. BABCOCK.

If you desire a mild, pleasant, safe and agreeable Cathartic, which will cause neither nausea or griping pains, use nature's remedy, HELMBOLD'S GRAPE PILLS. They are purely vegetable; their component parts being Catawba Grape Juice and Fluid Extract Rhubarb. Should you desire a brilliant complexion, youthful appearance, new life, new fresh blood and renewed vigor, use Helmbold's Extract Sarsaparilla.

THE SITUATION IN FRANCE.

RUMORS OF PEACE.

LONDON, May 3.

The Times' special despatch from Paris says that efforts for conciliation continue to be made. Seven societies propose to hold a monster peace meeting on Sunday next.

The slaughter in the affair at Clamart was terrible. The fighting was literally hand to hand, and fully three hundred of the insurgents were killed by the bayonet.

A despatch from Paris says that the column in the Place Vendome is to be demolished on the 8th. of May, and that all the statutes and other vestiges of the monarchical regime are to be destroyed on the same day.

A despatch from Versailles says the report that Marshal MacMahon has resigned, is absolutely false.

PARIS, May 3.

There was an infantry engagement before Fort d'Issy this morning. The Versailists were repulsed. The losses were considerable on both sides.

Several minor engagements have occurred at Neuilly, where the forces of the Commune and those of the Assembly still hold their old positions.

Other Places.

MADRID, April 3.

The financial scheme of Moret, Minister of the Colonies, was unanimously approved by the Council of Ministers yesterday.

LONDON, April 3.

The Daily News' special from Versailles announces that General Marode presented Thiers with petitions bearing the signatures of a great number of Belgian Catholics, requesting French intervention for the maintenance of the temporal power of the Pope.

FLORENCE, May 3.

The Italian Senate have adopted the Papal Guarantees bill—105 to 20. The bill was slightly amended and returns to the Chamber of Deputies.

VIENNA, May, 3.

The Minister of Instruction at today's session of the Reichsrath, declared that the Government had taken a position in favor of the abolition of the concordat with the Church of Rome, and would now consider the practical consequence to the empire and people of the dogma of infallibility.

BUCHAREST, May, 3.

The Roumanian elections resulted in favor of the Government. There were but few disturbances, and not a serious conspiracy to plunder and kill the Jews, discovered and frustrated. The ringleaders, officers of the Roumanian army, have been cashiered,

PARIS, May 3.

The Prussians having demanded the strict execution of the terms of the capitulation of Paris, the commune has been obliged to reduce its garrison in Fort Vincennes.

PARIS, May 3 by way of LONDON, May 4,

The communists are falling back. The Versailles forces on Tuesday night re-occupied the park of Issy. The village of Issy is almost completely surrounded, and its remaining defenders are closely pressed. Shells have fallen in the Rue Vaugirard, and several persons have been killed in the street. The Versailists are massing with the apparent intention of making an attack on Fort Issy.

Short Sight.

Short sight is frequently the penalty of learning. It follows, the Saturday *Review* says, very closely upon the amount of education by books. The Germans have the shortest sight of all nations, aggravated as the defect is by the small thin type and coarse paper in popular use in that country. Convexity of the lens of the eye is induced by the habitual adjustment to a near focus. Among sailors, whose eyes are directed so much toward distant objects on the horizon, sight is generally found the longest.

In the English and American armies efficiency of sight is one of the manifold qualifications in the recruit; but a pair of spectacles in the German ranks causes no greater surprise than a pipe does. But for the spectacled rank and file, where would have been the million of men whom Moltke undertook to place within a fortnight on the Rhine? Removed from study and in-door duty, and put to active outside work, the power of vision in a shortsighted person will improve.

The Saturday *Review* adds that with the spread of education by books to lower and lower strata of the social mass, a practical solution of the problem how to utilize short sight in war will have to be faced in real earnest, as the necessity of the case has forced it upon the Germans.

7-30 GOLD LOAN

OF THE

Northern Pacific Railroad

RAPID PROGRESS OF THE WORK.

The building of the Northern Pacific Railroad, (begun July last), is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grading is nearly completed 265 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track laying is rapidly progressing toward the eastern border of Dakota. Including its eastern connections the Northern Pacific Railroad Company now has 413 miles of completed road, and by September next this will be increased to at least 500.

A GOOD INVESTMENT. Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly Safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear seven and three-tenths per cent. gold interest (more than 8 per cent. currency) and are secured by first and only mortgage on the entire road and its equipments, and also, as fast as the Road is completed, on

23,000 ACRES OF LAND to every mile of track, or 500 Acres for each $1000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.

LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable at ten per cent. above par, in exchange for the Company's lands at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.

SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.

EXCHANGING U. S. FIVE-TWENTIES. The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

OTHER SECURITIES. All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. Express charges on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

The University Medicines

are not patent medicines, but the Favorite Prescriptions of the New York Medical University, an Incorporated Institution of the State, and are prepared in consonance with the views of a number of distinguished living American practitioners, who believe that the time is come when educated physicians should arise and make a decisive effort to overthrow the health-destroying system of quackery prevailing in every town and city, and substitute scientific, responsible remedials—made in accordance with the principles of Medical Chemistry—in place of the worthless or dangerous patent Medicines flooding the country.

A knowledge of Medicine and Chemistry, as profound as that of any physicians that have ever lived, enables us to warrant these Compounds to be the most perfect Curatives for disease ever placed before the people. What may seem almost incredible is the astonishing rapidity with which they cure diseases hitherto considered incurable.

They are combined, with great care, from fine chemicals, with a true knowledge of their therapeutic properties and physiological effects. Nothing cheap, impure, or poisonous, has been tolerated in their composition.

They are the finest prescriptions of a body of eminent American professors, and have been thoroughly tested in one of the most extensive and successful practice of the day.

The University Medicines

are to-day sweeping the country from Maine to Mexico, becoming the leading Health Restoratives, and rapidly superseding the old poisons, nostrums, and nauseous drugs, and their sale is becoming enormous. They are now regularly prescribed by over one thousand physicians.

No Forged Certificates Required.

No medicines ever originated have received so many genuine certificates of cures in so brief a space of time. We are daily receiving letters from every part of the country, from patients and physicians, recording the most astounding cures performed by these remedies. Many of these cases had been considered beyond the power of cure. We wish that we could publish these letters for the encouragement of the afflicted, but a book of 1,000 pages would not contain them.

From our Letter-Files.

In order to convince the skeptical, we this day publish the following opinions selected from many thousands voluntarily given by intelligent, respectable people who have used the UNIVERSITY MEDICINES themselves, or in their families, as a moral guarantee that these magnificent remedies are fully unlike the patent nostrums of the hour.

"F. Perdinand" appeared before me, J. W. Scott, President; L. Bassert, Vice-President; John G. Howard, Treasurer; and George Powell, Secretary of the New York Medical University, and made oath upon the Holy Evangel of almighty God, that the following are genuine, unsolicited extracts, taken from original letters being daily received at the institution. WM. H. RIBLET, Notary Public, Corner Ninth street and sixth avenue, New York.

SURGEON GENERAL'S OFFICE,
WASHINGTON, March 10, 1870.

Professors—Please forward my second order for UNIVERSITY MEDICINES. I am pleased to say that I have found them of great service in the treatment of patients under my charge.

———, A. A. Surgeon, U. S. A.

260 CONGRESS ST., Portland, Me., May 1, 1870.

Professor Scott and Associates—The UNIVERSITY MEDICINES are rapidly revolutionizing the practice of medicine in Maine. * * * I have over five hundred patients. * * * Here, in Portland, I have taken away two-thirds of the doctors' patients. * * * I have nearly two hundred agents, and am establishing ten agencies a day. * * * I shall sell $100,000 worth of UNIVERSITY MEDICINES in Maine this year. * * * I am worn out with hard work. * * * I enclose you a number of certificates of great cures. * * * I will pay $1,000 if one of them can be found that is not genuine. * * *

P. STAPLES, State of Maine Agent.

MOBILE, Ala., May 3, 1870.

Gentlemen—Send us a full line of your goods by steamer as soon as possible, as we intend to make the sale of the UNIVERSITY MEDICINES a specialty, having more confidence in their curative properties than any medicines we have ever sold. In fact we have the most unbounded belief in them, and always recommend them to our customers in preference to all others we have ever known. We have recently made some astonishing cures in Mobile of Scrofula, Catarrh, Kidney Diseases, etc., with your Cancer-Plant, Lithia, Specific, etc.

L. D. & B. G. GOULD,
Druggists, thirty-five years' standing.

From a distinguished member of Congress.
WASHINGTON, May 4, 1870.

My Dear Doctor—Your medicines seem to act favorably on the nerves, as well as the blood. * * * I am much improved. * * * My limbs are wonders of medical science. * * * I have every faith in your medicine and skill. * * * I believe that you are enlightened of God to do a great work, and that you will do it. * * * You have done a great deal for me. * * * You understand your business. * * * You are the second physician whom I have confidence in. * * * I would not trust the blockheads down here to give physic to my horse. *

BLAIRSVILLE, Pa., April 15, 1870.

To Professor Scott—Enclosed please find sketch of the case of William Carson, of this place, aged 45—Disease, indurated scrofulous ulcer of the right leg, painful and gangrenous, of 25 years' standing. It had exhausted all the skill of numerous physicians during that time.

This terrible picture was his condition on the 1st of February, 1870.

By the use of the Cancer Plant Extract, Healing Blood-and-Bone Ointment, and May-Apple Pills, he is now entirely cured.

This case has attracted remark and amazement.—He being a poor man, and one turned out to die, the medicines were furnished at cost—$15.

Besides, your Five Minute Pain Curer and Neuralgo-Rheumatic Elixir have straightened his neck, drawn to an angle of 45 degrees.

I took him in hand, while all the doctors laughed at me, and considered it a good joke to attempt to cure this poor man; but, thank God, I have cured all his maladies, restored his strength, and made him a well person with the UNIVERSITY MEDICINES.

I think, Doctor, that God has inspired you to bring forth remedies for the cure of His afflicted children that nothing in the shape of medicines has yet approached.

SAMUEL E. GREEN.

1,556 THIRD AVENUE, New York, June 23, 1870.

Professor Scott and Associates—It is truly gratifying to know that science has at length triumphed over quackery. I have been using the UNIVERSITY MEDICINES in my regular practice for some time with the most remarkable success. Disease of every character rapidly succumbs to their healthful influence. You are evidently destined to overthrow the old practice of medicine.

CHAS. K. DRAPER, M. D.

Dr. Scott, &c.—For years I have suffered with Cancer of the breast. What my sufferings were, tongue can never tell. In a dying condition I came to you, and commenced using your Cancer Plant and Ointment. Almost immediately, all pain ceased.—The tumor has vanished, and through the providence of God, I am a well woman. In my deep gratitude, and from a sincere interest in the welfare of those similarly afflicted, I shall be pleased to answer all questions.

New York, Oct. 12, 1869. MRS E. CAREY.

Three bottles of your Hydrated Oxymel cured me of Consumption, although our Bridgeport physicians said that I could not be cured.

GEORGE D. REYNOLDS.

Metallic Cartridge Company, Bridgeport, Conn. March 1, 1870.

Professor Scott—Through the recommendation of C. W. Huntington, Esq., of Hartford, who has successfully used your Lithia as a remedy for disease of the Kidneys and Liver, I am induced to order some.

Unionville, Conn., Jan. 1, 1870. L. M. MASON.

Dr. Scott—Three months ago, I was attacked with Heart Disease. Our family physician pronounced it Neuralgia of the heart, and prescribed medicine without benefit. I also ascertained that I was affected with that awful disease, Spermatorrhœa. I forthwith obtained your Ethereal Phosphorus, and after using four bottles was completely restored. Afterward I had pain in my back, which your Lithia cured. My oldest boy had the skin disease—Herpes—and doctored five years without relief. I gave him two bottles of your Cancer Plant Extract, and, thank God, he is well. WASHINGTON TYSON.

Pottstown, Pa., Jan. 5, 1870.

Derby, Conn., Jan. 21, 1870.

Dr. Scott—I came to the conclusion that you were trying to cure people, which is more than most Doctors do nowadays. I got a bottle of Lithia for my wife's kidney disease, which none could cure, and I found it helped her immediately. D. CAMP.

Towanda, Pa., April 17, 1870.

Dr. Scott—I have used your Extract of Cancer Plant for the blood, and pronounce it the chief of alteratives. A. N. NELSON.

165 North Main St., Providence, R. I.

Professors—Some of my friends and myself have tried the UNIVERSITY MEDICINES, and found them satisfactory beyond our expectations.

From the well-known eminent Dr. Buckler Jones:
Baltimore, Md., Oct. 17, 1869.

I have a lady under my care with Cancer in the left breast. I recommended her to use your remedies, and with the most marked benefit and decided improvement in every respect.

J. BUCKLER JONES, M. D.

Ashland, Pa., 1870.

Dear Sirs—I have prescribed your Hydrated Oxymel for Bronchitis, and the Yellow Jessamine for Heart Disease, with great benefit, and am convinced of their efficacy. DR. JOHN B. KENNEDY.

Newport, R. I., Jan. 14, 1870.

"Io Triumpho" should be the motto of your medicines. They have cured me after all our Newport physicians have failed. J. W. TILLSON.

16 Temple St., Hartford, Jan. 19, 1870.

Dr. Scott & Co.—Four bottles of your Ethereal Phosphorus have acted very strengthening to any system. H. KINZEL.

VERNON, Conn., May 4, 1870.

Doctors—I obtained eight bottles of your Ethereal Phosphorus for Spermatorrhœa. I am using it according to instructions, and feel a marked improvement. The lustre of my eyes has returned, and my whole countenance is brighter. It is slowly but surely curing me. Thanks to your wonderful medicine, it is helping me in many ways, etc., etc.

E. L. RISLEY.

FAIRPORT, Iowa, March 5, 1870.

Gentlemen—Your Katalpa Extract works magically. There is nothing equal. I have been affected with sick headache and liver complaint since last spring. Took three doses of your Headache Pills and can say they have cleaned my head out as clear as a bell. I gave the balance away, saying: "Gentlemen, be convinced—I am." Dr. McKENNA.

YARMOUTH, Me., May 9, 1870.

Doctor—My mother is taking your Cancer Plant for Dropsy. Two bottles have done her more good than three years' doctoring from the best physicians of this place. * * * I hope the Lord will continue to prosper you in the good work.

Mrs. SARAH A. WITTON.

58 MARKET ST., Pittsburgh, PA., July 1, 1870.

Professor Scott—Although dispensing the UNIVERSITY MEDICINES but a short time, I am confident that where they are given a fair trial they will work wonders as curers of disease, and give general satisfaction. All the medicines are proving successful, and my practice is rapidly increasing.

J. M. YOUNG, M. D.

OFFICE BLANCHARD HAMP CO.,
Palmer, Mass., May 4, 1870.

Professors—The University Medicines are effecting some remarkable cures here. Send me one dozen of Cancer Plant and Chemical Ointment.

A. B. CHAPMAN, Secretary.

PHILADELPHIA, June 23, 1870.

Professors—We have just been handed a bottle containing a piece of tapeworm, 13 feet 8 inches in length, which was brought away by the use of one bottle of Cancer Plant and the May-Apple Pills.

We also have just cured a lady of gravel of many years' standing, by using Lithia and Alkaline Resolvent. JOS. C. HARROLD.

I find the UNIVERSITY MEDICINES work like a charm in my practice.

W. WATERVILLE, Me. W. D. HICKS, M. D.

And thousands upon thousands of others. Can any other medicines show a similar record?

JURUBEBA.

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE, OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER OR THEIR CONCOMITANTS.

DR. WELLS having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. WELLS' EXTRACT of JURUBEBA,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and lymphatic temperaments.
